Dulcinea Farms

DULCINEA FARMS has introduced Rosso Bruno vine-fresh tomatoes, greenhouse-grown in Oxnard, Calif. Juicy and rich in flavor, these medium-size tomatoes, a wild European variety, are best eaten when they have a unique, reddish brown color with hints of green. Unlike many tomatoes purchased in

winter or out of season that are bland and flavorless, these have a robust, full tomato taste. For information and store locations, go to www.dulcinea.com.
