Asian-style cantaloupe

Article Last Updated: 07/31/2007

Orange County-based Dulcinea Farms has introduced Sweet 'n Crisp Asian-Style cantaloupe with a creamy-orange interior color, sweet flavor, and the texture and crunch of a crisp apple. Tasters really enjoyed the melon, a new hybrid derived from the hami melon discovered in China more than 1,700 years ago. Oval-shaped, the cantaloupes weigh from 3 to 5 pounds and retail for \$2.99 to \$3.99 each. Look for them at select Vons and Pavilions stores.
